Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

## It's because their Turkish blend is **BALANCED**

Balanced—that is what makes Fatima's blend comfortable, both while you're smoking and afterward, too.

The milder tobaccos in this Turkish blend are so well balanced with the richer, fuller-flavored leaves as to entirely off-set all "oily heaviness"—the cause of discomfort in so many other cigarettes.

And this very blending which makes Fatimas so comfortable (and therefore so sensible) is also just what imparts that unusually good Fatima taste.

But even so, you alone can decide whether or not you like Fatimas. That's easy to settle-try them.

The submarines, the passengers said, were seen from the shore off the port of St. George for the first time last Thursday and the Leviathan came in Friday morning. In addition to the passengers added, a fleet of six or eight fast, light cruisers flying British and French flags are now making Bermuda a base, the fleet having been increased since news of the presence of a German raider in the Atlantic became known.

Bermuda is under strict martial law according to one of the passengers who saw the submarines and military and naval secrets are closely guarded.
